

DEDON

CONTRACT

CONTRACT

The Perfect Partner for Your Project

For over 35 years, DEDON has been creating outdoor furniture of unsurpassed quality and design. Along the way, the company has developed a deep understanding of the needs of its contract partners: Experience. Versatility. Timeliness. A global reach. Dedicated service. The widest possible choice of product types, styles, colors, and finishes. Above all, a level of quality that cannot be matched.

These are the things that matter to our customers, and DEDON is uniquely positioned to deliver them, whether it's with handwoven collections manufactured entirely in house, or with teak and upholstered collections, produced in partnership with suppliers that share DEDON's passion for excellence.

Developed in the company's own research and development labs, DEDON products come in an array of styles suitable to any decor or outdoor concept. A wide range of customization options mean endless opportunities for creativity.

Once DEDON products are installed, contract partners can rest easy because they know our products are built to last. Thoroughly tested for strength, durability, weather resistance, UV-resistance, colorfastness, and more, every piece of DEDON furniture meets the highest quality standard of all – DEDON's own. **Guaranteed.**

Over three decades ago, our groundbreaking DEDON Fiber sparked a revolution in outdoor furniture design.

Owning and managing its entire furniture production process — including fiber extrusion at its headquarters in northern Germany — allows DEDON to experiment, explore, and create without constraint. Setting the standard for quality, comfort, and iconic design, DEDON continues to raise the bar for innovation in outdoor furniture.

DEDON has worked closely with some of the world's leading designers since the very beginning. As the first truly modular outdoor lounge system, LOUNGE by Frank Ligthart revolutionized outdoor living. Signature pieces such as the rotating ORBIT loveseat by Richard Frinier, the cocoon-like NESTREST by Daniel Pouzet and Fred Frety, and Sebastian Herkner's wing-back MBRACE rocking chair, have redefined how we experience life under the open sky. Marked by bold creativity, forward-thinking design, and uncompromising attention to detail, these and many other DEDON creations are now recognized as icons.

Produced in our environmentally-sound facilities in Northern Germany, DEDON Fiber is 100 percent recyclable and free from pollutants and heavy metals.

The Art of Weaving — Every Piece of DEDON Furniture is One-of-a-Kind

DEDON's master weavers are among the most talented in the world — and just one more way the company sets itself apart. It was the legendary skill of these weavers that first attracted DEDON to Cebu Island in the Philippines. The creativity of these craftworkers is reflected in weaving patterns of incomparable intricacy, innovation, and artfulness. Indeed, every piece of DEDON furniture is a handwoven, one-of-a-kind creation, the seamless pairing of cutting-edge technology and centuries-old craftsmanship.

Ancient Handcraft Meets Modern Technology

Unique within the outdoor industry, DEDON owns and operates the entire production chain of its handwoven outdoor furniture. While other brands outsource to various suppliers, DEDON meticulously oversees every aspect of its woven products' creation, from design to delivery. This ensures levels of quality and value that can't be matched.

The starting point is DEDON Fiber. Researched, developed, and manufactured at DEDON's state-of-the-art production facilities in northern Germany, DEDON Fiber is unrivaled for resilience, colorfastness, and strength. Each new profile of DEDON Fiber is tested in the lab for resistance to UV rays, saltwater, chlorine, sunscreen, and extreme temperature. With its quality proven, the fiber is then sent to DEDON's master weavers, on Cebu.

Application: Lounging

A great lounge environment begins with collections designed to work together. From large-scale modular sectionals to smaller, more intimate loveseats, rocking chairs, and side tables, the DEDON lounge portfolio gives designers the depth to create comprehensive settings.

From beach to
dining to lounging,
DEDON offers
furniture for every
occasion and
lifestyle.

Application: Beach/Poolside

DEDON's comprehensive range of beach chairs, daybeds, and accessories is engineered to perform. Our fully woven collections are built to withstand coastal conditions while maintaining the refined aesthetic hospitality clients expect. Broad enough to address every program need from a single source, with dedicated contract lines offering the customization and specification support that large-scale projects require.

Color zones a dynamic poolside lounge furnished with pieces from the MU, IZON, KIDA, MBRACE ALU, and PORCINI collections.

Rosy accents and complementary fiber tones unite the AHNDA, DALA, and TIBBO collections.

Application: Dining

Alfresco dining takes on an elegant and refined character with DEDON's outdoor dining collections. Armchairs and side chairs, paired with varying height and size tables, are designed to anchor a space rather than simply fill it. For contract designers, the range serves every dining context with collections that hold their integrity season after season, backed by specification and customization support for larger programs.

With multiple weaving colorways inspired by nature, MYMI bistro tables and chairs by GamFratesi offer endless opportunities for coordinated pairings.

Customization & Collections Made to Order

DEDON's expansive contract portfolio is complemented by made to order collections offering tailored solutions for commercial and hospitality spaces. Designed for use in public areas such as educational institutions, restaurants, or meeting spaces, these collections meet the demands of high-traffic settings with ease.

- Create individual settings for your projects with customized designs.
- Choose the perfect color for DEDON Fiber, powder-coating, and other materials.
- Select from a variety of high-end outdoor fabrics or propose your own fabric.
- Take advantage of custom cushion manufacturing and, exclusively for contract use, DEDON's special slim cushions, available on demand.

Work With Us

With its products, DEDON meets the highest industry standard of quality — and the same is true of the service it provides its contract partners. With representatives on six continents, DEDON is here to help with advice and planning, budgeting, customization services, transport, and on-site installation.

Digital Services for Professionals

We provide CAD files and fact sheets (*2D, 3D, and textures*) of all collections on our website (**dedon.us**) — for quick access without login-restrictions. By registering for the pCon platform, you gain access to features such as the 3D and augmented reality planning tool, complete with detailed DEDON product data. For additional services such as decor setting suggestions, individual plannings, or renderings, please contact the DEDON representative in your area.

Professionals Portal

Login for free access to CAD files (*2D, 3D, and textures*) and fact sheets for all our collections.

pCon Planning Tool and Catalog

Seamlessly integrate all 3D data with the software of your choice (*SketchUp, AutoCAD or Vectorworks*).

Exclusive Services

Our Interior Design Team is happy to help with personal planning advice, renderings, and more.

Live Stock Data

We provide a comprehensive overview of items in stock and corresponding lead times.

Social Media Collaborations

DEDON is proud to promote benchmark hospitality projects on its social media channels.

Sampling

We send all types of material and product samples upon request.

The perfect partner for your project — best reasons for choosing DEDON

Produced in Our Own Facilities

We own the production of DEDON Fiber and DEDON furniture from start to finish. With our own production facilities located in Germany and Cebu, this ensures the specialized craftsmanship of DEDON's master weavers is seamlessly paired with DEDON's refined, ultra-strong fiber and innovative technology. For our contract partners, in-house production unlocks exclusive customization possibilities — enabling DEDON to realize your unique vision for yachts, restaurants, hotels, and beyond.

World's Best Fiber

Whether it's desert winds, saltwater, or frost, DEDON Fiber is engineered to endure. Rigorously tested for 10 years of UV resistance, our proprietary fiber stands strong against all weather conditions.

The Right Material for Every Setting

With over three decades of expertise in outdoor living spaces of all kinds, DEDON specialists expertly tailor materials to suit every environment — whether it's a covered terrace, an exposed poolside, a sandy shoreline, or a setting deep in wild nature. That's why, in addition to the world's best fiber, we work with the highest-quality teak, aluminum, woven textiles, ceramics, and upholstery — all manufactured with passion for excellence.

Sustainability

DEDON is committed to sustainability at every stage. Our proprietary DEDON Fiber is 100 percent recyclable, free from pollutants and heavy metals, and engineered to withstand the harshest conditions. DEDON EcoCycle Fiber, a new, biodegradable innovation,

delivers the same performance and aesthetic as standard DEDON Fiber.

Design

DEDON collaborates with designers around the world — from famous names to rising stars — on collections that consistently garner the most prestigious design awards. Our in-house research and development department is able to work closely with each designer on solutions and innovations that make all the difference in terms of quality, function, and style.

Global Reach

With a distribution network in over 80 countries and an international presence, DEDON is a global company with a global mindset. Wherever our contract partners realize their projects, DEDON is there to support them with expertise, passion, and tailored solutions.
